

Microsoft Cloud Workshop: Intelligent Analytics (40516)

- **Formato do curso:** Presencial e Live Training
- **Localidade:** Porto
- **Data:** 12 Out. 2020 a 12 Out. 2020
- **Preço:** 510€
- **Horário:** Laboral - das 09h30 às 17h30
- **Nível:** Avançado
- **Duração:** 6 horas

Learn real-time analytics without IoT. Enable intelligent conversation in a machine learning-enabled, real-time chat pipeline and apply analytics to visualize customer sentiment in real-time for hospitals to allow guests to chat with one another and to communicate directly with the concierge.

Destinatários

Cloud Architects and IT professionals who have architectural expertise of infrastructure and solutions design in cloud technologies and want to learn more about Azure and Azure services. Those attending this workshop should also be experienced in other non-Microsoft cloud technologies, meet the course prerequisites, and want to cross-train on Azure.

Pré-requisitos

Workshop content presumes 300-level of architectural expertise of infrastructure and solutions design.

Objectivos

Students will be better able to implement a lambda architecture and enable web-based real-time messaging thru Web Sockets, Event Hubs, and Services Bus. In addition,

- Leverage Cognitive Services (LUIS & Text Analytics API)
- Process Events with Web Jobs
- Index with Search
- Archive with Cosmos DB
- Visualize with Power BI QA
