

Certified Information Privacy Professional/Europe (CIPP/E)

- **Formato do curso:** Presencial e Live Training
- **Localidade:** Porto
- **Data:** 04 Mai. 2020 a 05 Mai. 2020
- **Preço:** 1900€
- **Horário:** Laboral - das 09h00 às 17h00
- **Duração:** 14 horas

The global gold standard in European data protection certification.

This two-day training covers essential pan-European laws and regulations, as well as industry-standard best practices for corporate compliance. Those taking this course will gain an understanding of the European model for privacy enforcement, key privacy terminology and practical concepts concerning the protection of personal data and trans-border data flows.

The CIPP/E program was developed by the International Association of Privacy Professionals (IAPP), which is the world's largest comprehensive global information privacy community and resource. The CIPP/E certification holds accreditation under ISO 17024: 2012.

This training is an opportunity to learn about critical privacy concepts that are also integral to the CIPP/E exam. While not purely a 'test prep' course, this training is appropriate for professionals who plan to certify, as well for those who want to deepen their data protection knowledge. Both the training and the exam are based on the same body of knowledge.

Are you GDPR Ready?

There's a lot to know, there's a lot at stake and there's a lot of opportunity for data protection professionals with the right training and education.

Achieving a CIPP/E credential shows you have the comprehensive GDPR knowledge, perspective and understanding to ensure compliance and data protection success in Europe—and to take advantage of the career opportunity this sweeping legislation represents.

Also included:

- Certification Exam
- IAPP 1-year membership (further details on membership [here](#))

-

Programa

Data protection laws

Introduces key European data protection laws and regulatory bodies, describing the evolution toward a harmonised legislative framework.

Personal data

Defines and differentiates between types of data as defined by the GDPR, including personal, anonymous, pseudonymous and special categories.

Controllers and processors

Describes the roles and relationships of controllers and processors as defined by the GDPR.

Processing personal data

Defines data processing and GDPR processing principles, explains the application of the GDPR and outlines the legal grounds for processing personal data.

Data subject rights

Describes data subject rights, applications of rights, and controller and processor obligations as set out in the GDPR.

Information provision obligations

Explains controller obligations for providing information about data processing activities to data subjects and supervisory authorities as set out in the GDPR.

Cross-border data transfers

Outlines options and obligations under the GDPR for transferring data outside the European Economic Area, including adequacy decisions and appropriate safeguards and derogations.

Compliance considerations

Discusses the applications of European data protection laws, legal bases and compliance requirements for processing personal data in practice, including employers processing employee data, surveillance, direct marketing, and internet technology and communications.

Security of processing

Discusses considerations and duties of controllers and processors for ensuring security of personal data and

GDPR specifications for providing notification of data breaches.

Accountability

Investigates accountability requirements, including data protection management systems, data protection impact assessments, data protection policies and the role of the data protection officer.

Supervision and enforcement

Describes the role, powers and procedures of supervisory authorities; the composition and tasks of the European Data Protection Board; the role of the European Data Protection Supervisor; and remedies, liabilities and penalties for noncompliance as set out in the GDPR.
