Career opportunity knocks as the need for project talent continues to grow. **Research indicates that employers will need to fill nearly 2.2 million new project-oriented roles each year through 2027.** This means skilled project managers will be in high demand. Wherever you are in your career, the globally-recognized Project Management Professional (PMP) certification tells employers, peers, and the world you know what you're doing in project management.

If you are taking this course, you probably have some professional exposure to the duties of a project manager, or you may be considering embarking on a career in professional project management. Your ability as a project manager to demonstrate best practices in project management—both on the job and through professional certification—is becoming the standard to compete in today's fast-paced and highly technical workplace. **In this course, you will apply the generally recognized practices of project management acknowledged by the Project Management Institute (PMI)® to successfully manage projects.**

As a Premier PMI® Authorized Training Partner, Rumos delivers this PMI® Authorized PMP® Exam Prep course specifically designed to provide you with the proven, practical body of project management knowledge and skills needed to demonstrate project management mastery on the job. Additionally, this course can be a significant part of your preparation for the Project Management Professional (PMP)® Certification Exam. The skills and knowledge you gain in this course will help you avoid making costly mistakes and increase your competitive edge in the project management profession.

About the Exam

The new version of the Project Management Professional (PMP)[®] certification exam launched on 2 January 2021. The exam focus on three new domains:

- **People** - emphasizing the skills and activities associated with effectively leading a project team
- **Process** - reinforcing the technical aspects of managing a project
- **Business Environment** - highlighting the connection between projects and organization strategy

Content that spans the value delivery spectrum, including predictive, agile and hybrid approaches, will be included across the three exam domains.

The new exam is comprised of:

- 180 questions (the previous exam was 200) but the same number of questions will be scored
- 230 minutes to complete the exam
- One additional break for a total of two 10-minute breaks for computer-based tests. No scheduled breaks for paper-based exams.
- Questions will be a combination of multiple-choice, multiple responses, matching, hotspot and limited fill-in-the-blank.

Destinatários

This course is designed for individuals who have on-the-job project management experience regardless of whether their formal job role is project manager, who are not certified project management professionals, and who might or might not have received formal project management training.

The course enables candidates to develop professionally, increase their project management skills, apply a formalized and standards-based approach to project management, and seek career advancement by moving into a formal project manager job role, as well as to apply for Project Management Institute, Inc. (PMI)[®] Project Management Professional (PMP)[®] certification.
