

Understanding Cisco Wireless Foundations (WLFNDU)

- **Formato do curso:** Presencial e Live Training
- **Localidade:** Porto
- **Data:** 14 Jun. 2021 a 18 Jun. 2021
- **Preço:** 2995€
- **Horário:** Laboral - das 9h00 às 17h00
- **Duração:** 35 horas

The **Understanding Cisco Wireless Foundations (WLFNDU)** course gives you the knowledge and skills you need to position, plan, implement, operate, and manage a Cisco® wireless LAN (WLAN) network. This course teaches you how to design, install, configure, monitor, and conduct basic troubleshooting tasks on a Cisco WLAN network of any size.

This course does not lead directly to a certification exam, but it does cover foundational knowledge that can help you prepare for professional-level enterprise wireless courses and exams.

This course will help you:

- Learn the skills, technologies, and best practices needed to manage a Cisco WLAN network
- Understand and implement a Cisco wireless network architecture
- Design and implement WLAN maintenance and troubleshooting solutions
- Earn 40 CE credits toward recertification

Destinatários

- Network engineer
- Systems engineer
- Wireless engineer
- Technical solutions architect
- Network administrator
- Wireless design engineer
- Network manager

Pré-requisitos

We recommend but do not require that you have the following knowledge and skills before taking this course

- General knowledge of networks
 - General knowledge of wireless networks
 - Routing and switching knowledge
-

Objetivos

- Describe and implement foundational wireless theory
 - Describe and implement basic wireless security and client access
 - Describe and implement a Cisco wireless network architecture
 - Configure Cisco centralized wireless networks
 - Describe and implement WLAN maintenance and troubleshooting
-

Programa

Lab outline

- Practice RF Math
- Antenna Calculations
- Explore the Wi-Fi Environment
- Analyze Wireless Frames
- Configure Client Access
- Configure the Wired Infrastructure
- Configure a Centralized Cisco Wireless LAN Controller (WLC) Deployment
- Configure a Centralized WLAN Deployment on Cisco 3504 WLC
- Configure a Centralized WLAN Deployment on Cisco 9800 WLC
- Configure an IPv6 Operation in a Centralized WLAN Deployment
- Optimize RF Conditions and Performance for Clients
- Perform Centralized Controller Maintenance
- Use Troubleshooting Tools
