

Implementing and Operating Cisco Collaboration Core Technologies (CLCOR)

- **Formato do curso:** Mentored
- **Preço:** 3278€

The Implementing and Operating Cisco Collaboration Core Technologies (CLCOR) course helps you prepare for the Cisco CCNP Collaboration and CCIE Collaboration certifications, and advanced-level roles focused on implementation and operation of Cisco collaboration solutions.

You will gain the knowledge and skills needed to implement and deploy core collaboration and networking technologies, including infrastructure and design, protocols, codecs, and endpoints, Cisco IOS XE gateway and media resources, call control, quality of service (QoS), and additional Cisco collaboration applications.

This course also helps you prepare to take the Implementing Cisco Collaboration Core Technologies (350-801 CLCOR) exam, which is part of the new CCNP Collaboration, CCIE Collaboration, and the Cisco Certified Specialist – Collaboration Core certifications.

Este curso b-learning inclui

- Conteúdos disponíveis 24/7
- Labs
- Exame de certificação
- 10h de apoio Rumos em formato síncrono (online em tempo real):
 - 1 sessão de Kick Off de 1h para orientação e esclarecimento de dúvidas
 - 1 sessão de Q&A de 1h que ocorre 21 dias após a sessão de Kick Off
 - 1 sessão de Q&A de 1h que ocorre 42 dias após a sessão de Kick Off
 - 1 sessão de Preparação para Exame de 7h que ocorre ao fim dos 60 dias do curso
- O curso oficial Cisco em e-learning tem a duração de 180 dias. No entanto, por forma a alcançar melhores resultados na aprendizagem, a Rumos aconselha a realização do curso em 60 dias.

This course is also available in an Instructor-Led Training (ILT) format. For more information, select this link: [Implementing and Operating Cisco Collaboration Core Technologies \(CLCOR\)](#)

Destinatários

- Students preparing to take the CCNP Collaboration certification
- Network administrators

- Network engineers
 - Systems engineers
-

Pré-requisitos

Before taking this course, you should have the following knowledge and skills:

- Working knowledge of fundamental terms of computer networking, including LANs, WANs, switching, and routing
 - Basics of digital interfaces, PSTNs, and Voice over IP (VoIP)
 - Fundamental knowledge of converged voice and data networks and Cisco Unified Communications Manager deployment
-

Objetivos

After taking this course, you should be able to:

- Describe the Cisco Collaboration solutions architecture
- Compare the IP phone signaling protocols of Session Initiation Protocol (SIP), H323, Media Gateway Control Protocol (MGCP), and Skinny Client Control Protocol (SCCP)
- Integrate and troubleshoot Cisco Unified Communications Manager with Lightweight Directory Access Protocol (LDAP) Lightweight Directory Access Protocol for user synchronization and user authentication
- Implement Cisco Unified Communications Manager provisioning features
- Describe the different codecs and how they are used to transform analog voice into digital streams
- Describe a dial plan, and explain call routing in Cisco Unified Communications Manager
- Implement public switched telephone network (PSTN) access using MGCP gateways
- Implement a Cisco gateway for PSTN access
- Configure calling privileges in Cisco Unified Communications Manager
- Implement toll fraud prevention
- Implement globalized call routing within a Cisco Unified Communications Manager cluster
- Implement and troubleshoot media resources in Cisco Unified Communications Manager
- Describe Cisco Instant Messaging and Presence (IM&P), including call flows and protocols
- Describe and configure endpoints and commonly required features
- Configure and troubleshoot Cisco Unity Connection integration
- Configure and troubleshoot Cisco Unity Connection call handlers
- Describe how Mobile and Remote Access (MRA) is used to allow endpoints to work from outside the company
- Analyze traffic patterns and quality issues in converged IP networks supporting voice, video, and data traffic
- Define QoS and its models
- Implement classification and marking
- Configure classification and marking options on Cisco Catalyst® switches

Prossiga na sua certificação Cisco!

Este curso confere 64 créditos no programa Continuing Education da Cisco.

[Se procura revalidar a sua certificação Cisco, conheça o programa Continuing Education.](#) Como forma de incentivar os candidatos a manter, aumentar e a diversificar o seu conjunto de skills, a Cisco desenvolveu este Programa de Recertificação que oferece caminhos flexíveis para revalidar competências e certificações existentes.
